Beverly an Jennifer:

Attached is the Frost Street Parties' response to the EPA's 104(e) information request. An overnight mailing is going out tomorrow with the attachments which are too large to transmit electronically. I have pulled approximately 30,000 pages of documents responsive to your request from the more than 3 million pages in my possession. The vast majority of the documents are already in the possession of the State of New York as your co-agency. If you have any questions or require additional information, please do not hesitate to contact me.
